MONEY IN BEEKEEPING.

Good Results with a House Apiary Which Was Managed Wisely and Systematically.

The hives used were made to order They held 20 Langstroth frames crosswise and are expressly used for extracted honey. The total cost of the hives, fixtures and house was I must stay with myself all the time, \$125, not counting the bees. The top row of hives rests on a frame just ers and look into them comfortably, as the interior view shows; the other row rests on the floor. The hives I can see when they play fair and are only one story, so there is no use for queen excluders and no tieing up to be done.

The hive entrances match the corresponding slots in the side of the house and when the bees enter the

their respective hives. Each alter- kind. nate entrance notice is painted a darker color for the purpose of helping the bees to mark their hive. The bee house was built in March.

About the middle of April, when the weather was favorable to open hives, I took the long Ideal hives into my home apiary and transferred the bees and combs from the chaff hives SCIATIC RHEUMATISM CURED into them. It was only necessary to take three frames at a time and lift hem from one into the other. Toward evening, when the bees stopped flying, I closed the entrances with and drove to the bee house and they were soon arranged in position. The next day, which was pleasant, the bees came out in great numbers and evidently became somewhat confused as three hives were deserted, the bees having joined some of the others. But 17 built up nicely and in May I divided three of the stronge ones and made full complement of 20. In the latter is for sale by E. T. I took from this house in September 650 pounds of very nice honey which brought \$91. The yield in my home yard was much below the average, so that the year can be classed a very poor honey year. As there are enough surplus combs built I expect an average crop of 1,000 pounds a year from this house. No further expense is . necessary, only cartage in bringing home the honey. I visited the house during summer only once every week or so .- F. C. Herman, in American Agriculturist.

by our new invention. Only those born deaf are incurable, NOISES CEASE IMMEDIATELY. F. A. WERMAN, OF BALTIMORE, SAYS:

Conflored: - Being entirely cared of deafness, thanks to your treatment, I will now give you full history of my case, to be used at your discretion.

About it rears ago my right car began to sing, and this kept on getting werse, to (1) is at us hearing in this car entirely. I underwent a treatment for catarch, for three montia, without any speces, cound? An remer of physicians, among others, the most comment or receiving of the city, who told me that only an operation could help me, and even that only the permitty, that the head mises would then cease, but the hearing in the affected car would be lost forever.

I then saw your advertisement accides ally it a New York tesper, and ordered your treatment. After I had used it only a few Canarch spring to your directions, the noises ceased, and to-day, after five weeks, my hearing in the discussed ear has been entirely testored. I thank you heartily and beg to remain.
